

## locks for Lockers

OMNITEC offers a **simple, practical and secure** locker management system with the range of electronic locks.

OMNITEC electronic locks for lockers are the ideal solution for keeping the belongings of users and employees of health centers, spas, gyms, sports centers, education centers, company dressing rooms, etc. as well as in the usually shared room closets of hostels.

### LOCKERFY

Electronic lock for lockers with Bluetooth, proximity card and code opening.

Electronic lock for lockers, drawers and furniture.

Simple and fast installation in lockers, cabinets, drawers, etc. Suitable for installation on all types of materials.

Online connexion through Gateway, allows the administrator to manage users, openings log audit and remote opening from its Smartphone.

Two different modes of operation:

- Auto-closing, with programmable closing time.
- Open mode: the user closes the lock with their bluetooth electronic key, code or card.

Distinguish between 2 user modes:

- Owner: for lockers exclusively used by one person.
- Allocation: the user uses the free lockers that are available at any given time. 1 card can close only 1 locker.

Programmable automatic opening at a certain time.

Opening alarm: alarm sounds and lights up when forced to open.

### E-LOCKER STYLE

Integration with OMNITEC locks, **the same MiFare card for the room and the locker.**

Fast installation in lockers and cabinets made from wood, sheet metal, plastic, phenolic, etc.

Modern, easy and intuitive design for the user. Integrated handle for easier use of the locker.

Allocation: the user uses the free lockers that are available at any given time.

## Energy savers

One of the priorities of OMNITEC is its commitment to the environment and to contributing to saving energy in hotels, apart-hotels, residences, universities, public buildings, offices, etc.. The OMNITEC energy savers are devices that allow up to 60% of the electrical consumption of the buildings where they are installed to be saved.

### BUILT-IN ENERGY SAVER

**Simple:** activated with any card.

**MiFare:** operates exclusively with MiFare cards, without reading credentials.

### SMART ENERGY SAVER

**Smart:** activates the electrical installation with just the room's own MiFare card.

Its two relays are activated, or not, depending on the guest or service credentials.

### WIRELESS ENERGY SAVER

Wireless energy savers work in conjunction with the wireless motion, door and window sensors in those facilities where the room is accessed via Smartphone; with all-inclusive wristband, key ring, card, etc.

Wireless energy saver is designed for installation on a DIN rail.

The device is integrated into the lighting panel, simplifying its installation and without interfering with the aesthetics of the room.

### features

- Recessed and surface models
- LED indicator
- Available in different colours
- Courtesy light 10 to 30 seconds
- Allows work with automated systems, energy management systems and lighting controls
- Current: 16 A
